GMT 800
VP 975915

Gearbox mounting tool with 800 kg load capacity incl. swivel-mounted flat supports, tilt adjustment options and self-adjusting flat supports.

To facilitate access to difficult mounting positions, the base supports have been designed as a frame construction
The assemblies picked up can be easily fixed and secured with the tensioning bands included
The eyelets required for the tensioning bands are easy to access
Smart scissor spindle adjustment of the gear tool guarantees a very precise, sensitive and smooth positioning of the assembly even in difficult working environments
The two axes of the GMT 800 pivot +10° and +15°
Adjust using the manual turning handle supplied or else using a ratchet screwdriver
Tilt can be adjusted also under load
Self-adjusting flat swivel supports with 90 x 50 mm rubber pads and a tilting clearance of 30° for adjustment to the gearbox
Included: 4 pcs
